

# JUST ENERGY TRANSITION

What is and What is not for Africa

## INTRODUCTION

The Just Energy Transition webinar aims to provide participants with insights into the concept of energy transition, with a focus on its relevance and implications for Africa. Participants will gain a deeper understanding of the challenges, opportunities, and strategies associated with transitioning to sustainable energy systems that promote inclusivity and environmental integrity.

## **MODERATOR**

**INI ABIMBOLA**

*VICE-PRESIDENT, SUSTAINABILITY  
PROFESSIONALS INSTITUTE OF NIGERIA*

## **OBJECTIVES**

The objective of this webinar is to foster understanding and awareness of the concept of just energy transition, particularly within the African context. Participants will explore the key principles, objectives, and stakeholders involved in achieving a just and equitable energy transition, considering social, economic, and environmental dimensions.

## **LEARNING OUTCOME**

By the conclusion of this webinar, participants would have acquired knowledge and insights into the complexities of energy transition and its significance for Africa's sustainable development. Participants will be able to identify opportunities for promoting energy access, affordability, and sustainability while addressing socio-economic disparities and environmental concerns.

## **WHO SHOULD ATTEND?**

This webinar is suitable for energy professionals, policymakers, civil society representatives, and stakeholders interested in advancing energy transition initiatives in Africa.
