

# SUSTAINABLE FINANCE-

## Opportunities For Emerging Markets

# INTRODUCTION

In today's rapidly evolving global landscape, sustainable finance has emerged as a critical driver of economic growth and development, particularly in emerging markets. As nations strive to balance economic prosperity with environmental and social considerations, the need for sustainable financial practices has never been more pressing.

## **FACILITATOR**

**Professor Kenneth Amaeshi**  
*President, Sustainability  
Professionals Institute of Nigeria*

## **TRAINING OBJECTIVES**

This course is designed to equip participants with a comprehensive understanding of sustainable finance principles tailored specifically to the unique dynamics of emerging markets.

## **LEARNING OUTCOME**

By the end of this course, participants will emerge with the knowledge and strategies needed to navigate the complexities of emerging market economies, identify and capitalize on sustainable finance opportunities, and contribute to environmentally and socially responsible economic development.

## **WHO SHOULD ATTEND?**

This training course is ideally suited for professionals and stakeholders across various sectors who are keen to deepen their understanding of sustainable finance and its application in emerging markets. Individuals who will benefit from this program include:

1. **Finance Professionals:** Banking executives, investment managers, financial analysts, and risk managers seeking to integrate sustainability considerations into financial decision-making processes.
2. **Corporate Leaders:** CEOs, CFOs, sustainability officers, and corporate strategists interested in leveraging sustainable finance principles to drive long-term value creation and mitigate environmental and social risks.
3. **Government Officials:** Policymakers, regulators, and public sector professionals involved in shaping financial policies and regulations to promote sustainable development and attract responsible investment.
4. **Development Practitioners:** Development finance institutions, non-governmental organizations, and impact investors committed to fostering sustainable economic growth and social progress in emerging markets.
5. **Sustainability Practitioners:** Sustainability consultants, environmental specialists, and CSR professionals looking to enhance their expertise in sustainable finance and broaden their impact on corporate sustainability initiatives.
